

Folding Shelves

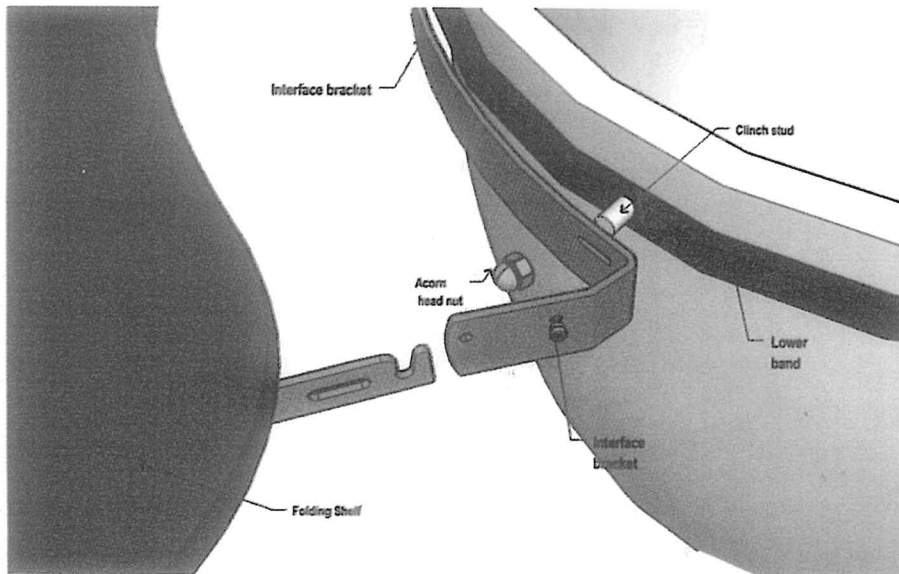

Part List

1. Wing assembly (2)
2. Shoulder screws (4)
3. Nylock nuts (4)
4. Interface bracket (2)

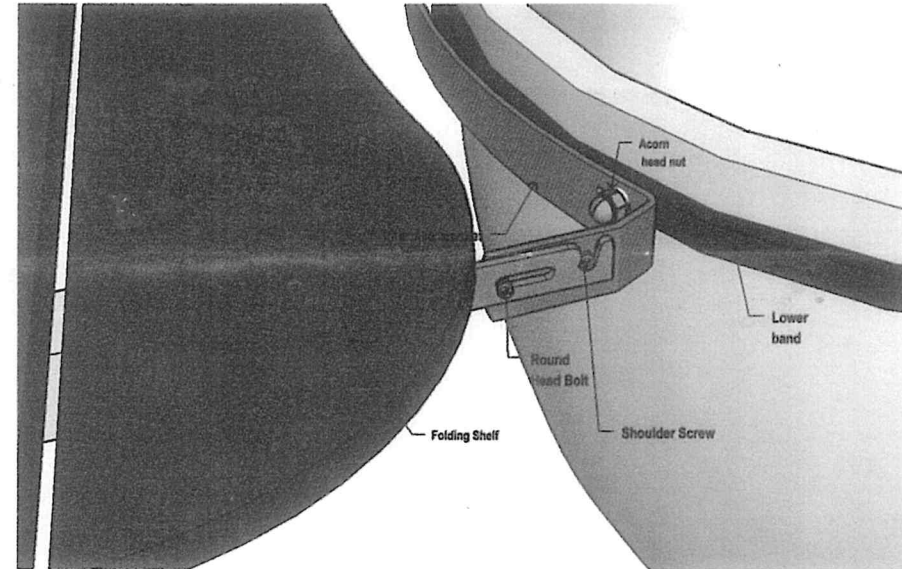

STEP 1: Attaching the interface bracket

1. Remove acorn studs from lower band clinch studs
2. Position the slots in the interface bracket onto the clinch studs then re-attach and tighten the acorn nuts (Note: the interface brackets have holes and slots closer to one edge than the other, the closer edge is the top)

STEP 2: Attaching the folding shelf

1. Attach wing to interface bracket
2. Insert shoulder screws from outside inward through holes in interface bracket and wing assembly, secure with nylock nuts

Care Instructions

Alfresco Concepts wood products are finished with a mineral oil product; re-oiling is recommended every 6-12 months, depending on conditions. Clean as needed with a mild detergent and non-abrasive cloth or any high quality wood furniture cleaner. Alternatively, mix 1 tbsp/15ml bleach, 1 tbsp/15ml mild detergent and 1 gal/3.8ml water - clean shelf with a non-abrasive cloth and rinse thoroughly. Once completely dry (24 hours) re-oil the shelf using teak oil or any high quality wood furniture mineral oil. An Alfresco Concepts Premium Ventilated Nest Cover is recommended to protect the wood. Check and tighten hardware occasionally.
